ZYCLE in Europe

Taking Your Indoor Cycling to the Next Level

We are a European company with a long-standing international presence in the world of indoor cycling. Our experience is backed by the latest trends in design and production quality. Specializing in electronic engineering, we develop innovative solutions that we apply to our products.

Based in Spain, from our beginnings, we have prioritized the highest standards of quality, technology in production,

flexibility, proximity, and quick resolution. We manage to bring our products to the forefront of the industry and perfectly meet the market's needs.

At **ZYCLE**, we embrace challenges, thrive on overcoming obstacles, and aim to improve ourselves every day. We firmly believe that success depends on the decisions we make at every moment. These decisions encompass the core values of **ZYCLE**. »

The **excellence** that drives us to demand very high levels of **quality and innovation**.

Responsibility, both in the social and ecological spheres, bringing us closer to creating a sustainable and future-oriented world.

Transparency, which we promote to our team and customers, helps us build a strong level of trust.

Agility and proximity achieved through our advanced production system, emphasizing **punctuality** in delivery times and a **rapid commercial response**.

And, of course, the idea of continuing to work to maintain the **excitement** and **passion** that defines us, always evolving to stay at the **forefront**.

NEW 2023

Smart ZBike 2.0

Elevate Your Experience

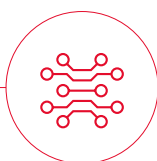

Discover the revolution with the Smart ZBike 2.0

The Smart ZBike 2.0 combines cutting-edge technology with state-of-the-art features. With a sophisticated and elegant design, the Smart ZBike 2.0 is the perfect training companion for cyclists and fitness enthusiasts seeking a unique experience.

Thanks to its gear shifting, which simulates that of a 15-speed single-plate bicycle, you will enjoy a more realistic and challenging cycling experience. This electronic button-backlit system is fully integrated into the handlebar, providing an experience that replicates the sensations of a cyclist on their bike.

The ZBike 2.0 is extremely quiet. Thanks to its Poly-V belt, the transmission system's sound is minimal, allowing you to enjoy a peaceful environment while immersing yourself in exciting virtual worlds during your workouts.

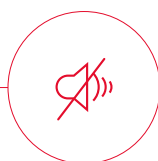

The ZBike 2.0 is fully adaptable to different individuals, both men and women. It is ideal for people with varying training motivations. Perfect for those users looking for intense and effective training, such as climbing a legendary mountain pass, as well as for users who simply want to ride while enjoying an indoor cycling class with their favorite music.

Smart

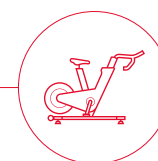

Silent

Compatible with
all simulators

New app

Cycling / Fitness

But that's not all; the new ZBike 2.0 offers new free trial coupons for the best simulators and fitness apps on the market, allowing you to explore new training experiences and take your sessions to the next level.

To further enhance your workouts, the new ZYCLE app offers useful functionalities, such as a dashboard where you can view all the data obtained during the session simply by connecting your ZBike 2.0 to your smartphone or tablet.

WHAT IT OFFERS >>>

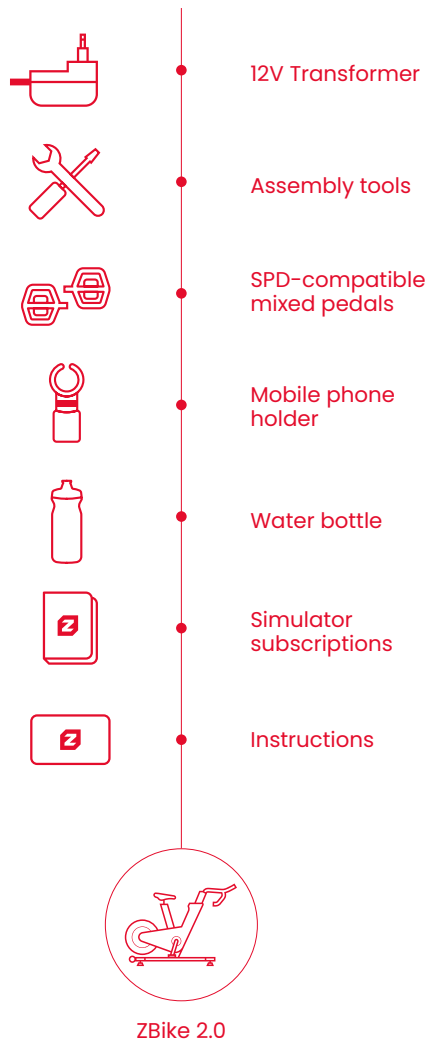

DESCRIPTION

- › Hybrid use for cycling and fitness.
- › Automatic resistance adjustment according to your training session.
- › Very low noise.
- › USB charging port.
- › Easy and quick assembly by a single person.
- › Perfect position. V-frame design with adjustable saddle and handlebars.

PRODUCT COMPATIBILITIES

- › Compatible with the most prominent cycling simulators.
- › Compatible with many fitness apps.

BOX CONTENTS

FEATURES

Accessories

Everything You Need
for a Complete ZYCLE Experience

Don't miss any updates and take advantage of the benefits of registering your warranty with ZYCLE. Remember that with our app, you can view your training data in real-time and get a summary of your results, with the option to share on social media and WhatsApp.

**ZPower Battery**

The ZPower is a portable battery that allows you to use your ZYCLE bikes and rollers without the need for electricity. With its Plug & Play system, all you need to do is connect it to the transformer of your ZYCLE product to start training anywhere, using a universal power cable. It can be charged with the power source of the bike or roller.

**Tablet Stand**

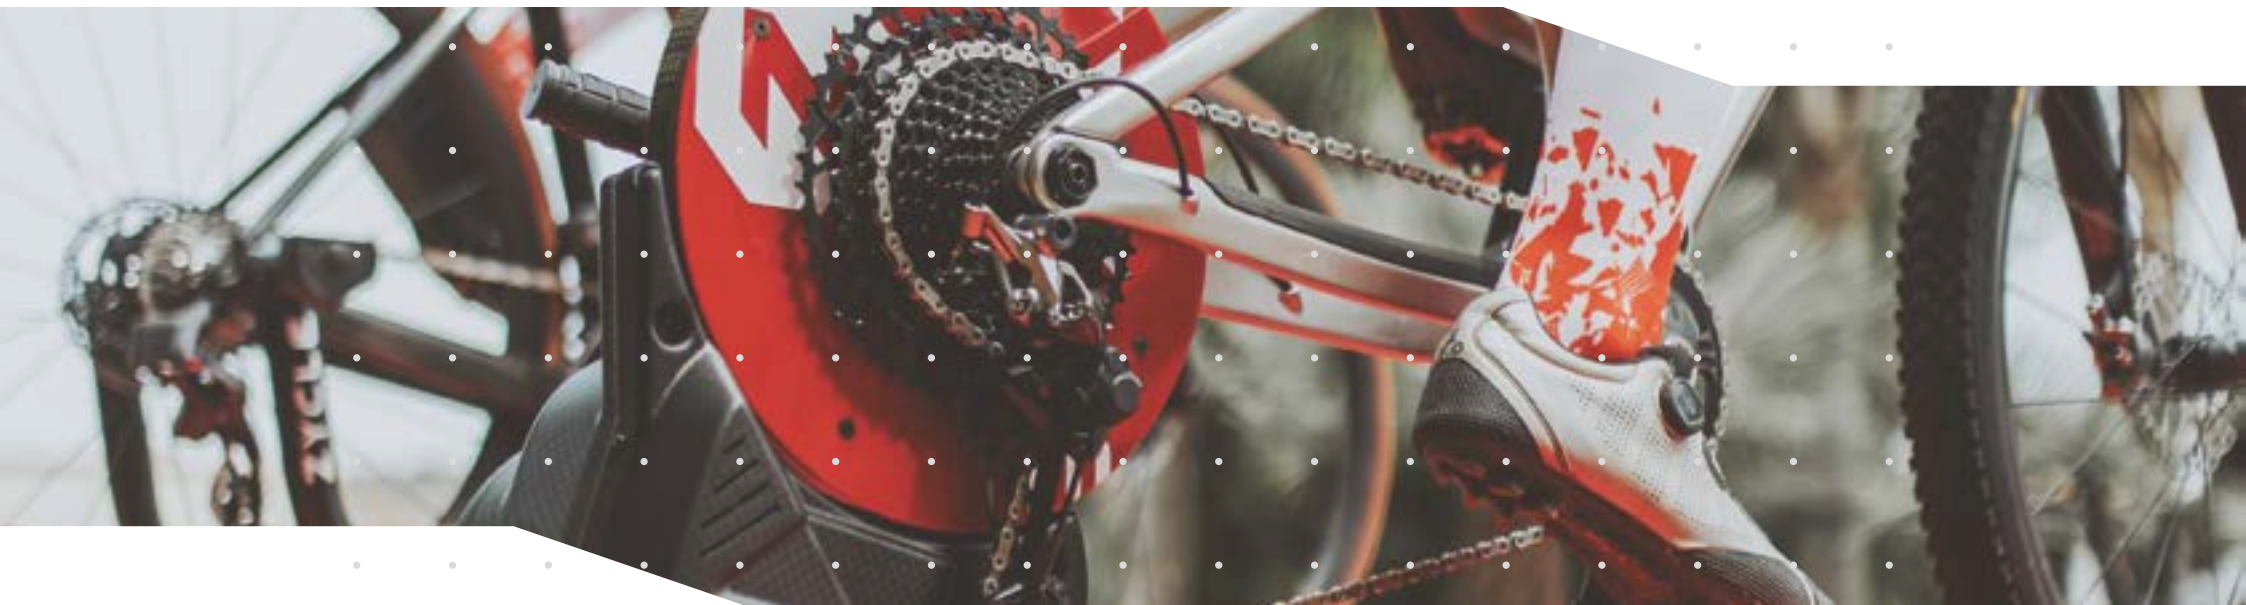

The ZYCLE tablet stand is ideal for the advanced smart bike ZBike 2.0, allowing you to view cycling simulators on any tablet. It is adjustable to fit all tablets, ensuring a secure hold even during intense workouts and protecting the device from vibrations and falls.

**ZYCLE Mat**

The ZYCLE bicycle mat is an essential accessory for indoor cycling at home. It reduces vibrations and noise, protects the floor from scratches and sweat stains, and is suitable for both stationary bikes and bicycle rollers. Made with high-quality materials to withstand intensive workouts.

**USB ANT+**

The ZYCLE ANT+ USB stick allows you to pair your devices with popular training simulators like BKOOL, Zwift, Trainer Road, and more. It uses cutting-edge ANT+ technology for wireless connection and seamless communication between devices.
